MODEL BUILDING

Choose the appropriate Model

#Load the ExtraTreesRegressor

```
from sklearn.ensemble import ExtraTreesRegressor
```

```
model = ExtraTreesRegressor()
```

```
model.fit(X_train,y_train)
```

#Loading the RandomForestRegressor

```
from sklearn.ensemble import RandomForestRegressor
```

```
reg = RandomForestRegressor()
```

```
from sklearn.metrics import r2_score
```
